2.2.1 The institution assesses students' learning levels and organizes special programmes for both slow and advanced learners:

Present a write-up within amaximum of 200 words.
Process used to identify slow learners and Advanced learners:

➢ Students are classified as slow or advanced learners based on their MID-I exam results; students who scored less than 50% of the total marks are classified as slow learners, while students who scored more than 70% of the total marks are classified as advanced learners.

Slow Learners/Weak students:

➢ Tutorials / remedial classes are conducted for these students to explain the critical topics, to clarify their doubts as to foster improvement in their academic performance.

Often absent or tardy through SMS or phone call. in order to encourage them to routinely attend the classes.

➤ Along with helping them succeed academically, we encourage students to take an active role in all of their extracurricular activities.

➤ For every 20 students, one of our faculty members is assigned as a mentor or counselor; they regularly engage with the students in friendly interactions and assist them in resolving their individual issues and achieving their objectives.

➤ Assign in gregular homework is an essential part of our teaching approach for slow learners because they give students the opportunity to practice and revise their understanding of the subject on their own, resulting in a complete understanding of the subject.

Advanced Learners/Bright students

➤ Bright students are those who excel at problem-solving and also perform well on midterm exams; these students are identified and the following strategies are used.

➤ Students are encouraged to join professional organizations such as IEEE, IETE ,and ISTE in order to advance their overall skills.

➤ They are put to the test with a variety of tasks and assignments in order to improve their performance and skills.

➤ Based on performance and talents demonstrated within classroom, a class representative is chosen for each class. The class representative assumes responsible for organizing departmental seminars and workshops that provide opportunities for interaction with academic and professional specialists.

➤ They are motivated in taking internships in industries that are related to their core subjects.

Date and Time of Activity	30.10.2023(One week)	09.30 pm to 03.30 pm
Details of Participants	30(III-I)	
Coordinator	Dr.Raj Kumar Agarwal,	
Organizing Dept./Support System	ELECTRONICS AND COMMUNICATION ENGINEERING	
In collaboration with	TASK ACTIVITY CENTRE	
Description	KNRCER organised and certificate programme on **Cyer Security** Max on 30th October -2023 an knowledge enhancement programme in collaboration with Task activity centre. The programme gives the sufficient knowledge into the location of the tools and commands that will make the design process even easier and faster. We will go on to design basic geometries, edit objects and modify objects through specific functionalities, until reaching the final project. Employee of the organisation Dr. N. ASHOKKUMAR (HOD-ECE) and coordinator Dr.Raj Kumar Agarwal, gave a comprehensive view of the objectives and relevance of the programme KNRR spoke about the need of students for constantly upgrading their skills and upgrading their knowledge to meet industry needs. Regional head of activity centre Mr.P.Vijay highlighted the	

	initiatives of Forge activity centre and how it constantly strives to enhance skills of students. This is followed by an interesting talk by Mr.Rakesh patnaik trainee of **Cyer Security**. It is informed to students to utilise this opportunity and keep keen interest which is much helpful for 3rd Year students An interesting interaction session ensured where the students raised relevant quarries and shared their observations and experiences. The programme concluded with the felicitation of the distinguished guests by senior faculty of the department.

SUMMARY REPORT

ON

ADD ON PROGRAM

Cyber Security (ECE2023-003)

The ADD ON Program is successfully conducted at Kasireddy Narayanreddy College Of Engineering and Research, Abdullapurmet. The program was conducted from**30-10-2023 to 04-11-2023** at ECE department, for the Academic Year 2022-23. This program was conducted for ECE students of III Year I sem during the Academic Year 2022-23 from09:30 AM to 03:30 PM daily on topic of "**Cyber Security(ECE2023-003_)**"by Dr.Raj Kumar Agarwal, Associate Professor in ECE Department and Program co-ordinator. **Total – 30**students attended the program. Exam was conducted to the studentson the last of the Program and feedback was collected from them. Ithas a high impact to improve the skills that can help the student in their career.I thank all faculty and students of KNRR for their support to complete the program successfully and special thanks to the technical staff for their support. The detailed Brochure and photos are attached here with.

The outcome of the programme **Cyber Security** was:

- ❖ Students acquired the basic knowledge of Understanding Malware and Threats.
- ❖ Students are familiarised with analysis of **Network Security Fundamentals**.
- ❖ Students learnt the Constraints ofCryptography and Data Protection.
- ❖ Students learnt different types of Web Security and Safe Browsing.
