The New Paradigm of Work Culture

FROM 10-02-2020
TO 15-02-2020

STUDENT CO-ORDINATORS A.SAI BHARATH YADAV J.NIKITHA

Paradigm Shifts

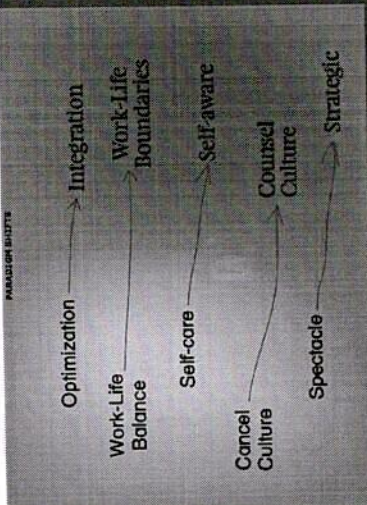

PARADIGM SHIFTS

The big economic and market movements undulated in big swings that were due to a sequence of actions and reactions by policy makers, investors, business owners, and workers. In the process of economic conditions and market situations growing overdone, the seeds of the reversals germinated. For example, the same debt that financed excesses in economic activity and market prices created obligations that could not be met, which contributed to the declines. Similarly, the more extreme economic conditions became, the more forceful policy makers'

Workshop Highlights

The New Working Paradigm is a way to match your organizational processes and redefine the relationship between employers and employees. Overall, the New Working Paradigm sets your organization up to become more resilient, purpose-driven and connected. It is an analytical approach to design your future way of working that is tailored to your organization. Despite the truly relevant discussions focused on creating the physical and digital workplace for hybrid work, the New Working Paradigm takes a broader perspective. It is about determining why your organization wants to work differently and what the impact of such a decision is for your organization, where one potential outcome is to combine physical, virtual and hybrid ways of working while maintaining a supportive organizational work environment.

The current paradigm in business and work, which has been around for the last 200 years, is centered on an "ownership-management" paradigm. Our system places the needs of the owners and those at the upper levels of management in first-position. While the current paradigm has been at the forefront of millions of improvements, and has driven prosperity upward while reducing poverty, it also has its short-comings. It is based on a belief system that sees scarcity and limits all around, believes that the most-fit should survive, that winners take all, and (s)he who puts their own money at risk should reap the rewards.

CERTIFICATE OF PARTICIPATION

This is to certify that R. SINDHU of
Kasireddy Narayan Reddy College of Engineering and Research has
Participated in 36 hours Add on program of Emerging Trends in
Digital Analytics from 16/12/19 to 21/12/19 organized by Dept. of MASTER OF
BUSINESS ADMINISTRATION IN COLLABORATION WITH FORGE
